January 2022

Shiverpool,

As a charity that is tackling loneliness and social isolation by bringing together older and younger people, we're always trying to think outside the box for activities and events which are informative, fun, social, unique, and can be enjoyed by all ages.

Luckily, Shiverpool tours are all of the above and so much more. Our groups include people aged 18 all the way up to people in their 90s, and we have been lucky enough to enjoy 6 Shiverpool tours.

Every time it's a joy, from the wonderful staff who make the booking process so easy and work around our busy calendar, to the tour guides who leave our intergenerational neighbours both smiling and spooked in equal measure. Even during the pandemic when our face-to-face activities were sadly suspended, Shiverpool agreed to run an online ghost tour, where our group could learn the creepy history of the city from the safety and comfort of their living rooms on zoom!

We're so lucky to have such a brilliant concept like Shiverpool on our doorsteps, but even luckier to have the team behind it that make it what it is – we couldn't recommend working with them enough, and hope to work with them again in the very near future.
